

At birth a Giraffe drops the equivalent of its height to the ground.  
Similarly, we drop a 200mm high glass 200mm  
to check reasonable durability

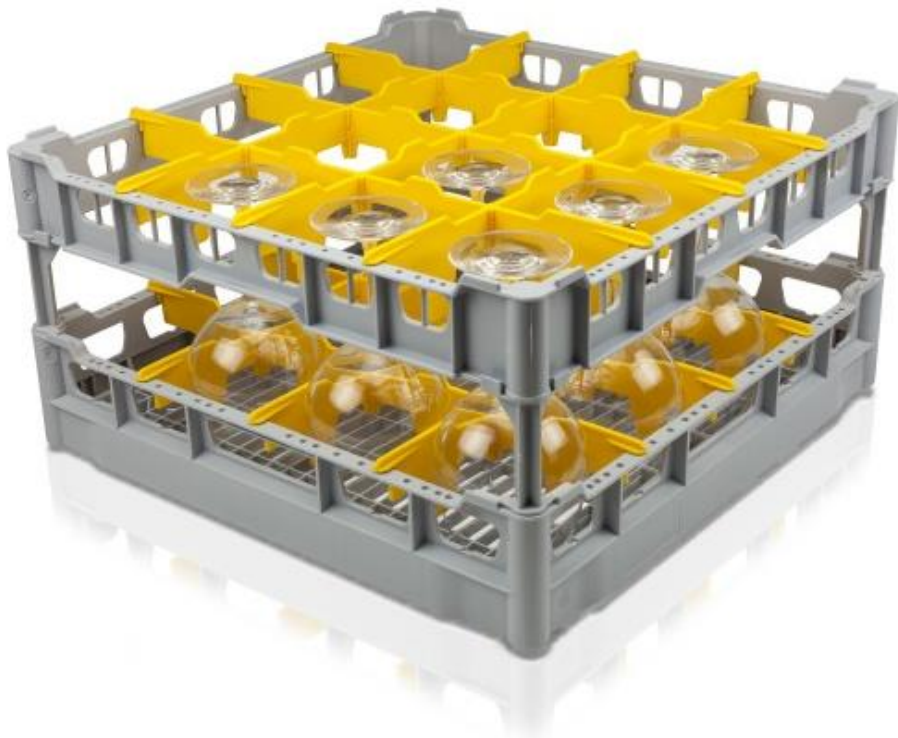

To confirm Tritan® Crystal glasses  
are durable  
we drop  
samples from every production run

> Glass Health Warning <

All glasses are under stress.  
A Schott Zwiesel Crystal glass will likely survive  
the test shown here, one time.

To maximise the service life of your Schott Zwiesel  
wine & bar glasses we recommend the use of  
plastic, compartmentalised wash/dry/store racks

# Schott Zwiesel IMPERIAL 2002-2018

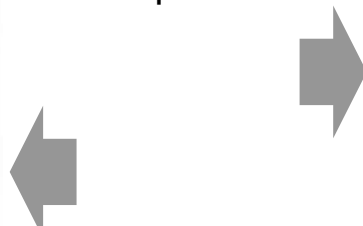

Over 16 years, this glass has been retrieved from storage, transported, drunk from, transported, washed, dried and put back into storage more than 270 times

Thanks to TRITAN® Crystal & good stewardship it still looks like new

Maximise service life - use plastic, compartmentalised wash racks

Exceptional Dishwasher Resistance
